Intelink-U Eligibility Criteria

Intelink-U is a set of web-based services, tools, and technologies that operate at the Sensitive-But-Unclassified level to enable cross-community collaboration and sharing of intelligence and terrorism information with the National Intelligence Enterprise.   Intelink-U operates on DNI-U, an accredited secure US Government network managed by the Director of National Intelligence Chief Information Officer.

To qualify for access to Intelink-U, an individual must meet **both** Mission and Status Criteria.

Mission Criteria: An individual must belong to or provide direct support to one of the following communities:
1. Intelligence
2. Defense
3. Homeland Security
4. Law Enforcement
5. Diplomatic

Status Criteria: An individual must be identified as one of the following:
1. A US Government employee.
2. An Active duty member of the US Military.
3. A Ready Reserve member of the US Military.
4. An active member of the US National Guard member.
5. A contractor or other individual sponsored by a US Government agency.
6. A State, Local or Tribal Government employee.
7. A Foreign National sponsored by a US Government agency.
8. A member of the US Academic Community sponsored by a US Government agency.

Intelink -U access will be terminated when either the Mission or Status eligibility criteria are no longer satisfied.

Intelink-U users must comply with DNI-U security requirements.
